Education

Degree in Multimedia and Communication Technologies | 2020 - 2023

University of Aveiro, Portugal

- Explored web development, UX/UI design, communication systems, client/server architecture, databases, communication theory and multimedia history.

Master in Communication and Web Technologies | 2023 - 2025 (Expected date)

University of Aveiro, Portugal

- Studying advanced client and server technologies, CI/CD, UX/UI design and accessibility.
- Engaged in a Mindera partnership project using the Challenge Based Learning (CBL) methodology to rethink e-commerce and generate forward-thinking ideas.

Experience

Web Developer, Designer and Communication Manager | 2023

Academia SCA/AAUAV | MERN Stack, Tailwind CSS, Google API, Figma

- Improved Academia Sporting Clube de Aveiro's online presence by developing a website powered by MERN stack technologies.
- Focused on delivering an optimal user experience, the website features highly informative content, ensuring a more engaging and informative online platform.
- Reimagined their social media communication strategy and visual identity, resulting in an increased number of followers across multiple social platforms.
- Achieved acknowledgment by the Portuguese Sailing Federation and Jornal Diário de Aveiro (regional daily newspaper), recognizing the impact of the new communication strategy on the sailing academy's digital presence.

Web Developer and Designer | 2022

Tryon | React, Firebase, IGDB API, Discord API, Bootstrap, Figma

- Tryon enhances the online gaming experience by facilitating connections among gamers, fostering a sense of community and addressing apprehensions associated with playing online with strangers.
- Received a distinguished nomination for Media Play, an exhibition showcasing top projects by undergraduate students from the university's Department of Communication and Art. The event featured the involvement of prominent companies, including Mindera, Critec, and Altice.

UX/UI Designer | 2020

Beyond The Sgreen | Adobe Illustrator, Invision

- Conceptualized and designed Beyond the Sgreen, with a focus on digital detox.
- The app offers users a suite of functionalities to manage their mobile phone usage effectively.
